Advanced:	5 or Less Inverted Tricks	Womens:	Over 13 Years Old all Levels
Outlaw:	More than 5 Inverted Tricks		

TOURNAMENT FORMAT:

Our goal is to get a group of riders out on the water and have fun and compete. So leave your ego at home and come on out for some fun! The format for the tournament is a One Round - Expression Session Format. Do what ever you want behind the boat (within legal limits)

* You will be judged from the time you leave the dock till you return back to the dock. (hopefully)

* Novice and Grom Classes will be allowed 3 falls. * All other classes will be allowed a maximum of two falls.

* Based on the site, there will be a double up on one end of the Lake.

* All riders must be on site to fill out liability releases, have equipment checked in and attend the mandatory rider meeting at 9:00 the day of the event Failure to do, without a permission of the event coordinator, will result in you being disqualified or subject to a late fee.

* The competition will begin at 9:00 with the Novice class going first, Grom Boys, Grom Girls, Grom Pro, Girls, Boys, Intermediate, Women's, Advanced and Outlaw.

* Judging is TOTALLY SUBJECTIVE.....Our judges have decades of combined experience judging tournaments and we do our best to judge you as fairly as possible.. That said if you are going to get all bent out of shape, scream, complain about judging...let us give you a refund and go do something that doesn't add stress to your life because life is too short. We work hard to be fair...but our judging is subjective and we want to let you know in advance.

* You are responsible for making sure the driver knows your boat speed and direction of the double up.

* Make sure you know when you ride, have your rope "de-knotted", and are ready to go. We will not wait on you.

* Make sure you have a life vest and a "untangled" rope to use. If you do not have one let us know.

SERIES POINT SYSTEM:

This is a 5 Stop Series. Your Placement at each event earns you points towards an overall Series Title. **So how does the overall point system work?** Its Pretty Simple.....The Top 10 Riders from each event will be awarded points based on their placement. These points will be accumulated towards an Overall Series Championship Total. Here is the breakdown of how points are earned towards the overall Series Title:

1st Place: 20 Points	2nd Place: 17 points	3rd Place: 14 points	4th Place: 12 Points
5th Place: 10 Points	6th Place: 8 Points	7th Place: 6 Points	8th Place: 4 Points
9th Place: 2 Points	10th Place: 1 Point		

PARTICIPATION POINTS:

To Reward riders who compete at each of the 4 events, riders who do so will receive 5 bonus points for participation which will be added towards your Overall Series Score! In the past this had made the difference in the overall series winners and helps riders who might not win an event still have a great chance towards placing in the overall series top results! You must at least put your board on and jump into the water to qualify for participation points at each of the five events.
